

## **Jaguars in Jeopardy**

**We have adopted endangered animals in each class in school. Year 3 and Year 4 have adopted a jaguar. This half term our learning will be all about the jaguar and how we can help this animal in danger (jeopardy).**

**Each week you will have a learning grid with English tasks and a variety of other cross-curricular tasks to complete throughout the day to build your knowledge and understanding of the jaguar. The learning grids can be found on your class page on the school's website and Google Classroom. All resources to accompany the grid will be uploaded to Google Classroom. Please let your class teacher know if you are unable to access online learning or if you cannot print.**

**As with our previous guidance around home learning. You should aim to be completing an English and maths task in the morning and tasks from other areas of the curriculum in the afternoon. Maths tasks will be posted separately to the learning grid, however, we have tried to include some maths linked to our topic too. As we have emphasised previously, you need to decide upon the balance that works for you and your family when it comes to home learning. However, the more tasks you engage with, the more knowledge you will learn and the more skills you will acquire/practise across the curriculum.**

**Please try to send in/upload completed work to Google Classroom. We will be sharing examples of inspiring work on both the Class Dojo and Whole School Dojo pages. We cannot wait to start this exciting theme with you on Wednesday 10<sup>th</sup> June.**

**If you are excited and inspired and want to find out about the Jaguar before Wednesday, then please use the website and video links to get a head start!! We would love to hear your questions/ideas of what you would like to learn about the jaguar. ...**
